

GPSMAP® 79s

Marine Handheld With Worldwide Basemap

PART NUMBER 010-02635-00

CAST OFF CONFIDENTLY

Stay on course, and track more adventures with the GPSMAP® 79s rugged, floating handheld.

It's water-resistant, it floats, and it's fogproof, so it belongs on the water — just like you.

This thing can remember up to 10,000 waypoints and more, so you don't have to.

It's nice to have reliable positioning when you're out on the water.

The built-in compass will point you in the right direction.

Get the best of Garmin and Navionics® data with optional BlueChart® g3 charts.

Stay out longer with up to 19 hours of battery life in GPS mode.

RUGGED HANDHELD

This handheld is water-resistant IPX7 with a high-resolution colour display you can read in the sun. The glass is even scratch-resistant and fogproof.

DESIGNED TO FLOAT

If rough waters come and the handheld goes overboard, don't worry. This device floats.

BATTERY LIFE

User-replaceable AA batteries (not included) provide up to 19 hours of battery life in GPS tracking mode.

ACCURATE TRACKING

With support for multiple satellite constellations — such as GPS, GLONASS, Galileo, QZSS and SBAS — you'll get accurate, reliable tracking and positioning around the world.

INCREASED MEMORY

More memory than previous models means you can save and track 10,000 waypoints, 250 routes and 300 fitness activity files.

BUILT-IN COMPASS

The 3-axis tilt-compensated electronic compass shows your heading — even while the boat is standing still.

General	
LENS MATERIAL	chemically strengthened glass
DIMENSION	6.77 x 17.40 x 4.23 cm
WEIGHT	282g with batteries
WATERPROOF	IPX7
MIL-STD-810	Yes (thermal, shock, water); bare unit only
DISPLAY TYPE	Transflective, 65K colour TFT
DISPLAY SIZE	3.8 x 6.3 cm; 3" diag (7.6 cm)
DISPLAY RESOLUTION	240 x 400 pixels
